## Alerts

### Bootstrap Element –

Bootstrap 5 Alerts - <https://getbootstrap.com/docs/5.0/components/alerts/>

### Alerts (Badge) –

### Notes –

- When an alert is displayed, it is shown with an overlay filter, covering and darkening the rest of the site.

# Form Fields

## Bootstrap Element –

Bootstrap 5 Floating Label -

<https://getbootstrap.com/docs/5.0/forms/floating-labels/>

## Text Field (Standard w/Label) –

Single Line Form Field

## Text Field (Multiline w/Label) –

Multi-line Form Field...

## Notes –

- When a single line form field with a label is typed in, the field label is minimized and “floated” to the top left of the field.

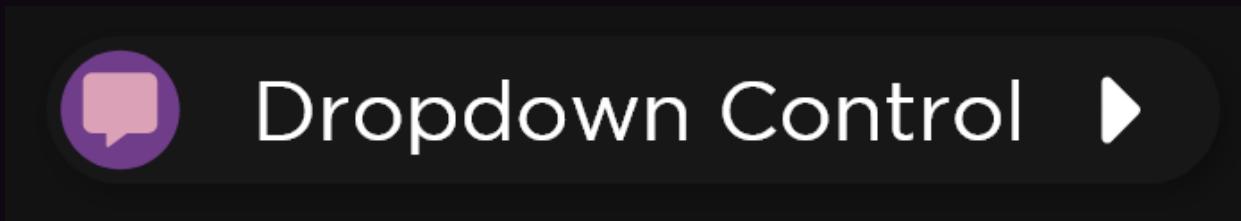

## Dropdowns

### Bootstrap Element –

Bootstrap 5 Dropdowns -

<https://getbootstrap.com/docs/5.0/components/dropdowns/>

### Dropdown (Dropdown Button) –

### Dropdown (Dropdown Button) –

### Notes –

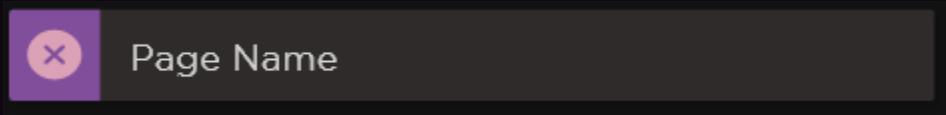

- Contact Page Dropdown entry is a link to the contact page
- Phone Number and Email are loaded from the Django Admin Screen.

# Navigation Link Cards

## Bootstrap Element –

Bootstrap 5 Cards - <https://getbootstrap.com/docs/5.0/components/card/>

## Card –

## Notes –

- Clicking on the card directs the user to the associated page.

# Hit Cards

## Bootstrap Element –

Bootstrap 5 Cards - <https://getbootstrap.com/docs/5.0/components/card/>

## Card –

## Notes –

- Clicking on the card directs the user to the associated hit.

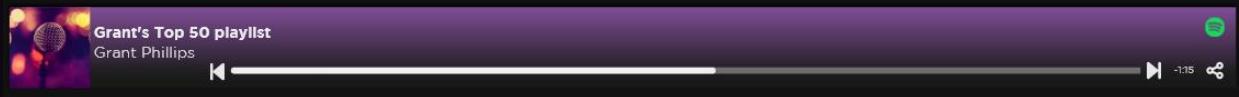

# Embedded Playlists

## Source –

Spotify Playlist Embedding –

```
<iframe style="border-radius:12px"  
src="https://open.spotify.com/embed/playlist/6bS3bTeu26LOlahLEWvtcT?u  
tm_source=generator" width="100%" height="380" frameBorder="0"  
allowfullscreen="" allow="autoplay; clipboard-write; encrypted-media;  
fullscreen; picture-in-picture"></iframe>
```

## Mockup –

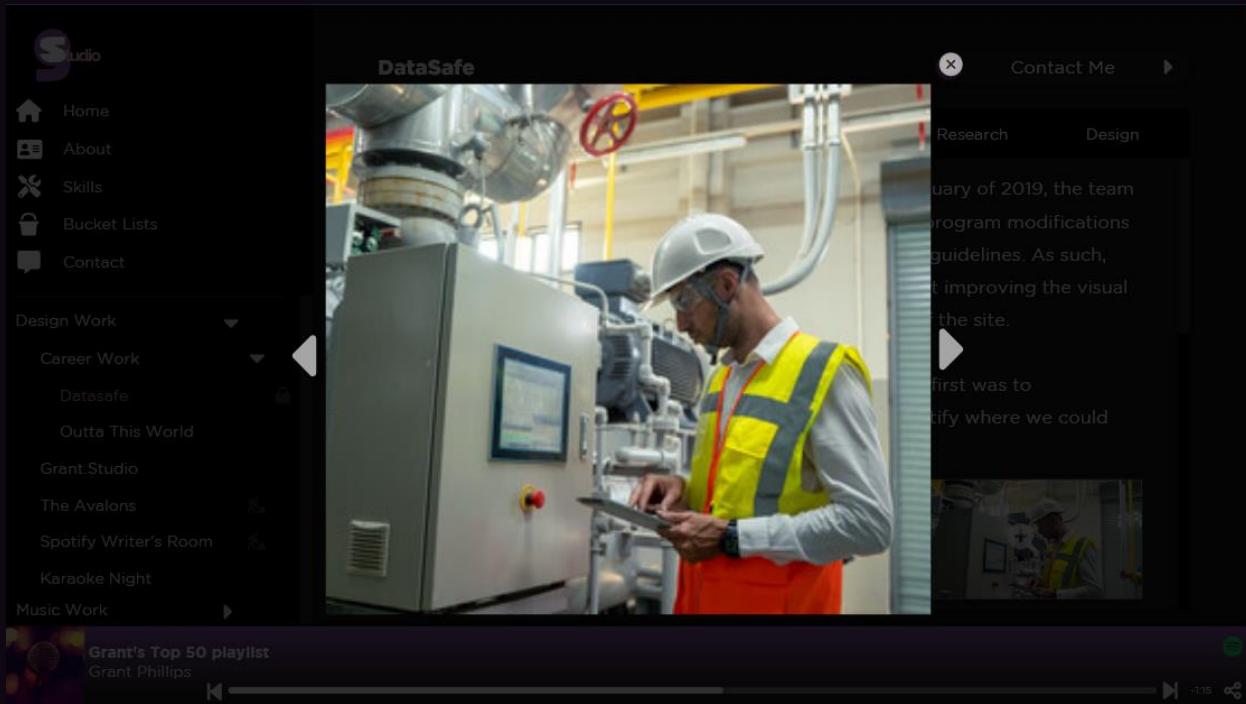

## Notes –

- The playlist does NOT start playing by default.
- The playlist is always at the positioned at the bottom of the screen, no matter where the user has scrolled to.
- The Playlist is not displayed while the site is in the mobile version.

# Image Preview

## Example –

## Notes –

- When an Image Preview is displayed, it is shown over a dark overlay that covers the rest of page.
- There are “Previous” and “Next” arrows that cycle through the images in set in that preview cycle.
- Clicking on either the dark overlay or the close button closes the preview.

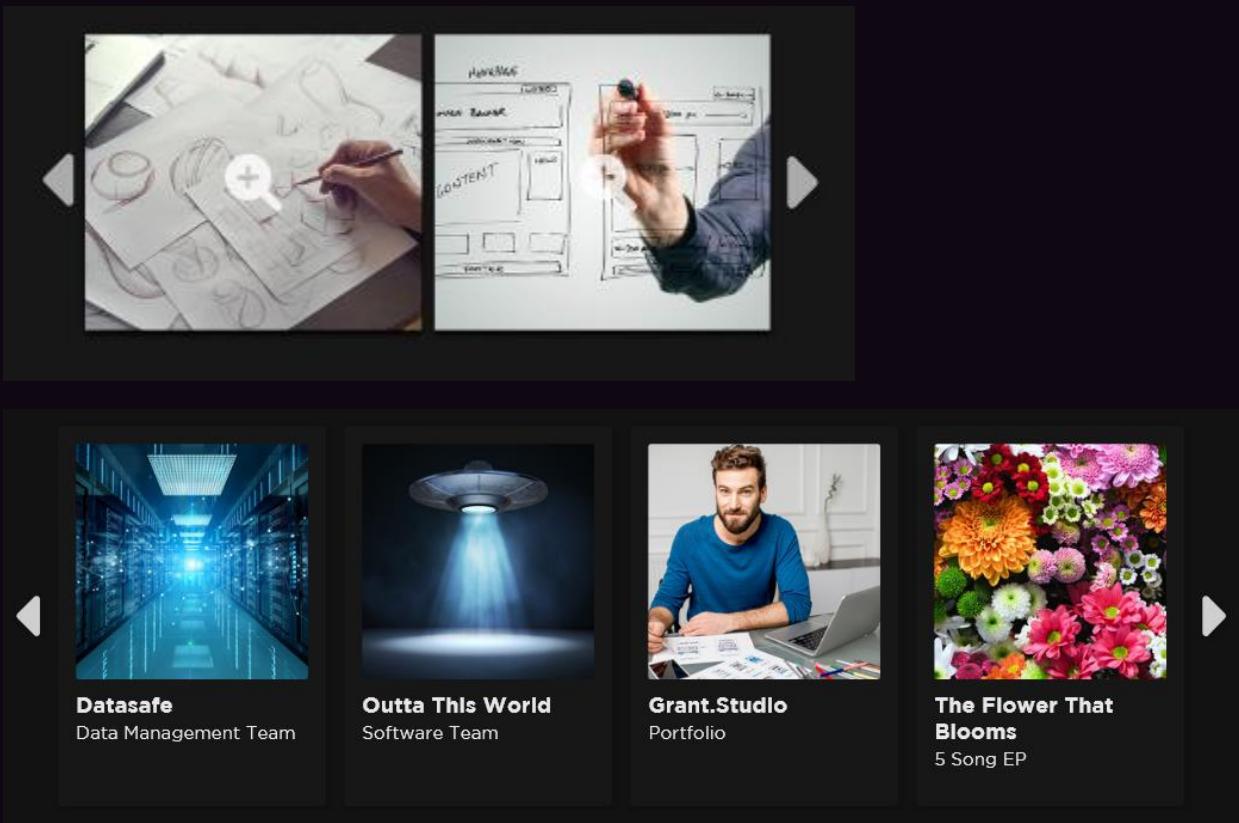

# Carousel

## Bootstrap Element –

Bootstrap 5 Carousel -

<https://getbootstrap.com/docs/5.0/components/carousel/>

## Example –

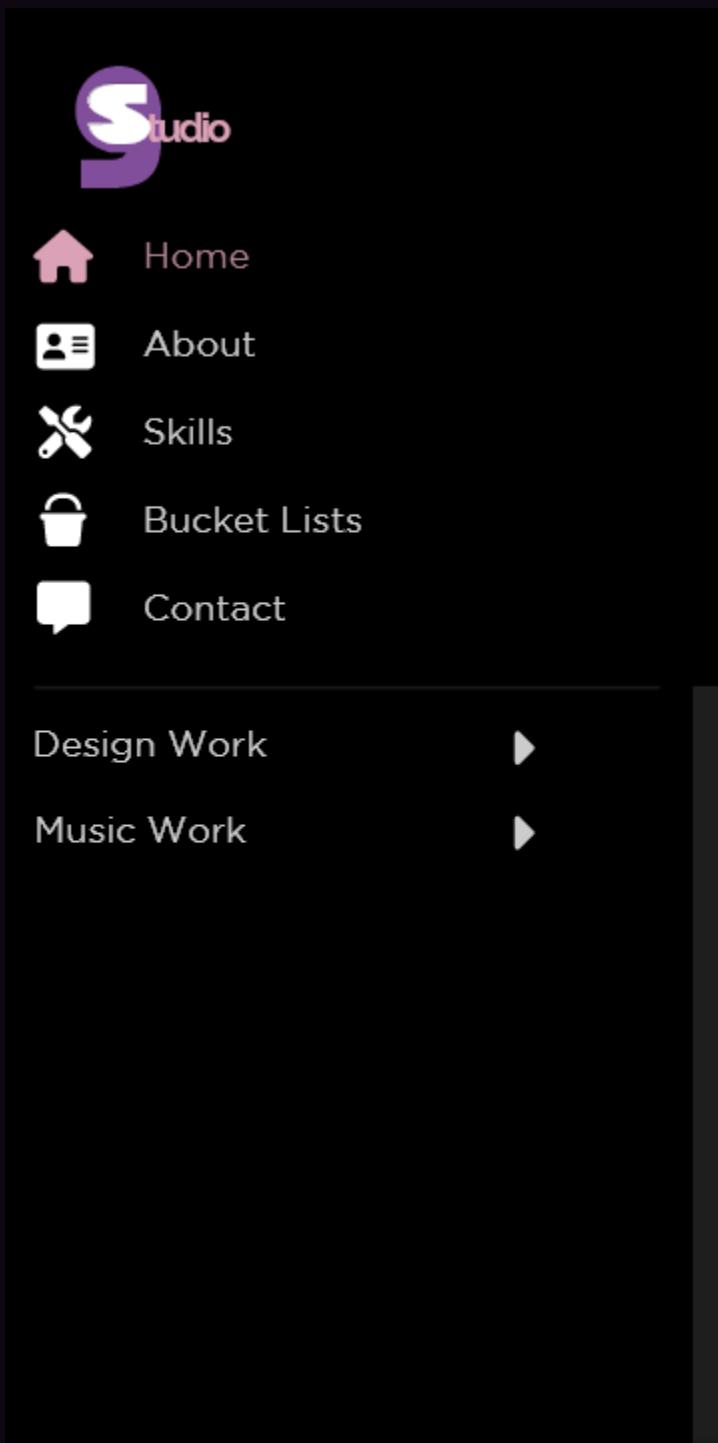

## Notes –

- Clicking the “Previous” or “Next” buttons in the carousel cycle through the items in the carousel.

# Sidebar Menu

## Desktop –

## **Mobile –**

## **Notes –**

- When a page is clicked on, that page's link and associated icon become highlighted in the sidebar.
- The bottom portion of the sidebar that displays the folders and the hits is scrollable.
- When an arrow is clicked on in the folder navigation portion is clicked, the folder either expands or collapses
  - When the arrow is facing the right, that means the folder is collapsed.
  - When the arrow is facing down, that means the folder is expanded.
- The banner at the top of the mobile site is displayed at the top at all times.
- The Logo in the banner acts as a “Home” button.
- When in the mobile version of the site, the sidebar is hidden until the “Menu” button at the top is clicked.
- If the menu button is clicked again, the sidebar is hidden.
- When the Mobile Sidebar is unhidden, it behaves similarly to the desktop version.
  - The mobile sidebar does not show the logo, as it is in the banner.
- When a page is clicked on from the sidebar, the sidebar is then hidden.
- If a hit has the “isHidden” flag turned on, then that item will not display in the sidebar.

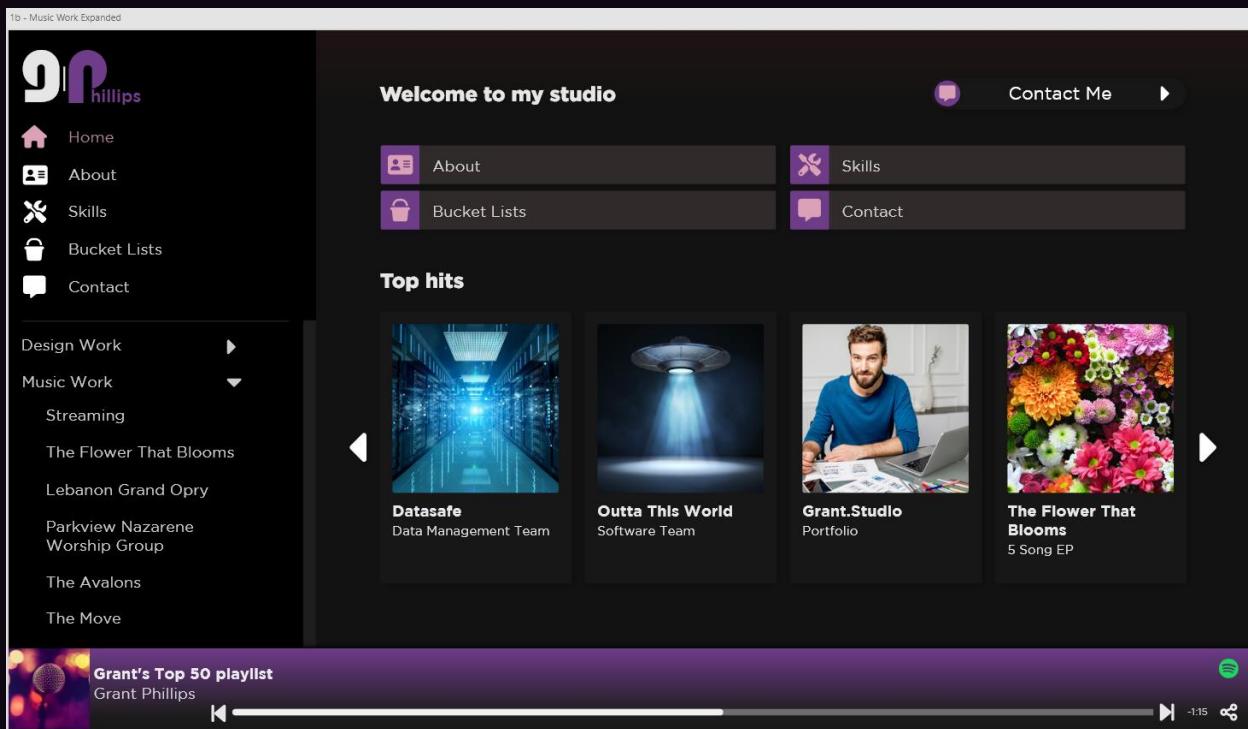

# Home

1 - Home Page

The screenshot shows a dark-themed user interface for a studio. On the left, a sidebar lists navigation items: Home, About, Skills, Bucket Lists, Contact, Design Work, and Music Work. The main content area features a "Welcome to my studio" header and a "Top hits" section with four cards: "Datasafe" (Data Management Team), "Outta This World" (Software Team), "Grant.Studio" (Portfolio), and "The Flower That Blooms" (5 Song EP). Below this is a Spotify player bar showing "Grant's Top 50 playlist" by Grant Phillips, with a play button at -1:15.

1a - Design Work Expanded

This screenshot is identical to the first one, except the "Design Work" item in the sidebar is expanded, revealing sub-categories: Career Work, Datasafe, Outta This World, Grant.Studio, The Avalons, Spotify Writer's Room, and Karaoke Night. The rest of the interface remains the same, including the top hits section and the Spotify player.

## Notes –

- The Top hits are gathered from hits that have the “Top Hit” flag selected on the Django Admin Screen.
- If a Top Hit has its “isHidden” flag selected, it is hidden from the carousel.
- The Home screen is the default screen shown when accessing the site.

# About

2 - About (Default - "Overview")

**Who I am**

Contact Me

Overview Education Experience Family Passions

I am a UI/UX designer experienced in User-Centered Design and Agile methodologies.

Through my after-hours experience in music production, I found that I have a "sample" mindset, meaning I prefer to avoid reinventing the wheel. Instead, I apply proven solutions to new challenges.

Grant's Top 50 playlist  
Grant Phillips

2a - About ("Education Details")

**Who I am**

Contact Me

Overview Education Experience Family Passions

I attended Kent State University in Cleveland, Ohio for a B.S. in Management Information Systems, graduating in December of 2018.

My studies included Data & Information Management, Data Visualization, Application Development, IT Infrastructures, Project Management, Technology & Society, and Leadership & Ethics.

I also completed a UI/UX Design Specialization from the California Institute of the Arts to learn more about Visual Elements of User Design, UX Design Fundamentals, Information Architecture, Wireframes, and Prototypes.

Grant's Top 50 playlist  
Grant Phillips

2b - About ("Experience Details")

The screenshot shows the 'About' section of a website. On the left is a sidebar with a logo 'GP Phillips' and links for Home, About, Skills, Bucket Lists, Contact, Design Work, and Music Work. The main content area has a title 'Who I am' and tabs for Overview, Education, Experience, Family, and Passions. Below the tabs is a dark image of a person working at a desk. Text on the left side reads: 'I worked part-time at Ryans & James, an automotive retail services provider, working with a team to design a new internal Enterprise Resource Planning system, targeted to replace two legacy systems within the company.' Text on the right side reads: 'After graduating, I joined the Datasafe team as a Designer-Analyst working to develop a materials data management platform. In my time here, I have designed, tested and overseen the release of Datasafe and its related tool sets.'

2c - About ("Family")

The screenshot shows the 'About' section of a website. The layout is identical to the previous one, with a sidebar on the left and a main content area on the right. The main content area has a title 'Who I am' and tabs for Overview, Education, Experience, Family, and Passions. Below the tabs is a dark image of a group of people. Text on the left side reads: 'I grew up in a small town with my parents and sister. Each person had their own artistic passion; Mom had her sewing, Dad had his cooking and gardening, and my sister had her dancing. I loved to get into everything, from playing music to taking apart VCR's to learn how they work. After sometime of taking apart home appliances, I fell into the role of the family's "tech guy", solving any and all problems that involved electronics.' Text on the right side reads: '23 years later I met my now-fiancée, Casondra. She has become an inspiration in my life, from witnessing the drive she has in pursuing her dreams of being a PA, to seeing how kind her heart can be. Together, we rescued a Pitbull-Hound mix from the shelter and named him Foster (but he also goes by "Stinky"). We're gearing up to get married in 2023 and soon after that, travel the world before settling our roots where life takes us.'

2d - About ("Passions")

**Who I am**

Contact Me

Overview Education Experience Family Passions

**My passion of music really took off in 2005 when I was gifted my first instrument - a drum set! Through years of lessons, playing in school, and playing in groups, my creative side flourished. It flourished so much that I took up other hobbies to continue to fuel that flame - cooking, hiking, interior design, short films, and game design.**

**My career in game design didn't exactly take off once I learned in college backend development didn't scratch that creative itch I've cultivated through the years. Because of that, I changed majors from Computer Engineering to Management Information Systems, finding myself solving problems with different technologies once more - and I loved it! With additional training in UI/UX, I found that the passion I had years ago for game design was just the seed that my passion for product design grew from.**

## Notes –

- The element used for the view table is the Bootstrap 5 Scroll Spy - <https://getbootstrap.com/docs/5.0/components/scrollspy/>
- The Scroll Spy can be navigated through the links at the top or the scroll bar.
- Above the background image in each section is a dark overlay to make the text stand out more.
- Titles, Content, and background images on this page are loaded through the Django Admin Screen.
- Content on this screen is presented in block text format.

# Skills

3 - Skills - (Default - "Design")

The screenshot shows a dark-themed website for 'G.Phillips'. On the left is a sidebar with a logo, navigation links (Home, About, Skills, Bucket Lists, Contact), and dropdown menus for Design Work and Music Work. The main content area has a title 'What I can do' and tabs for Design, Testing, Training, Management, Video, and Music. A section titled 'Design Skills' lists: Adobe Creative Cloud Suite, User Centered Design, UX Prototyping, UI Design, Responsive Design, Information Architecture, User Research, and Requirements Analysis. In the background, there's a blurred image of a person working at a desk with a laptop and papers. At the bottom, a purple Spotify-style bar displays 'Grant's Top 50 playlist' by Grant Phillips.

**Design Skills**

- Adobe Creative Cloud Suite
- User Centered Design
- UX Prototyping
- UI Design
- Responsive Design
- Information Architecture
- User Research
- Requirements Analysis

3a - Skills - ("Testing")

This screenshot shows the same website structure as the previous one, but the main content area is titled 'Testing Skills'. It lists: Usability Testing, A/B Testing, Integration Testing, Regression Testing, and Preparation and Execution of Test Plans. The background image and Spotify bar are identical to the first screenshot.

**Testing Skills**

- Usability Testing
- A/B Testing
- Integration Testing
- Regression Testing
- Preparation and Execution of Test Plans

3b - Skills - ("Training")

The screenshot shows a dark-themed website for "Grant Phillips". The header features the name "Grant Phillips" with a purple logo. A navigation bar includes links for Home, About, Skills, Bucket Lists, and Contact, along with Design Work and Music Work dropdown menus. The main content area is titled "What I can do" and lists "Training Skills": User Guide Documentation, Training Series Development, and Facilitate User Forums. A background image shows people in a workshop or classroom setting. At the bottom, a Spotify player displays "Grant's Top 50 playlist" by Grant Phillips.

3c - Skills - ("Management")

The screenshot shows a dark-themed website for "Grant Phillips". The layout is identical to the previous one, with the "Management" section selected in the navigation bar. The main content area is titled "What I can do" and lists "Management Skills": Sprint Planning, Agile, Customer Relationship Management, SDLC, and STLC. A background image shows two people working at a desk. At the bottom, a Spotify player displays "Grant's Top 50 playlist" by Grant Phillips.

3d - Skills - ("Video")

The screenshot shows a dark-themed website for 'Grant Phillips'. On the left is a sidebar with a purple logo, navigation links for Home, About, Skills, Bucket Lists, and Contact, and dropdown menus for Design Work and Music Work. The main content area has a dark background with a video camera image. At the top, it says 'What I can do' and lists categories: Design, Testing, Training, Management, Video, and Music. Under 'Video Skills', it lists Adobe Creative Cloud Suite, Storyboard/Script Development, Green Screen, and Studio Lighting.

Grant's Top 50 playlist  
Grant Phillips

3e - Skills - ("Music")

The screenshot shows a dark-themed website for 'Grant Phillips'. The layout is similar to the previous one, with a sidebar and a main content area featuring a video of two men playing guitars. The main content area lists 'What I can do' and categories: Design, Testing, Training, Management, Video, and Music. Under 'Music Skills', it lists Drumset/Percussion, Bass Guitar, Guitar, Keyboard, Vocals, Songwriting, Production, and Mixing.

Grant's Top 50 playlist  
Grant Phillips

## Notes –

- The element used for the view table is the Bootstrap 5 Scroll Spy - <https://getbootstrap.com/docs/5.0/components/scrollspy/>

- The Scroll Spy can be navigated through the links at the top or the scroll bar.
- Above the background image in each section is a dark overlay to make the text stand out more.
- Titles, Content, and background images on this page are loaded through the Django Admin Screen.
- Content on this screen is presented in list text format.

# Goals

4 - Goals (Default - "Technology")

The screenshot shows the 'My goals' section for the 'Technology' category. On the left is a sidebar with a logo, navigation links (Home, About, Skills, Bucket Lists, Contact), and sections for Design Work and Music Work. The main content area has tabs for Technology, Music, Health & Fitness, Travel, and Personal. Under the Technology tab, there is a heading 'Technology Goals' followed by a list of goals:

- Design and Develop an eCommerce site for a family member's crafting business
- Develop a Python program to backup and catalog music projects
- Switch to using HomeAssistant.io for my SmartHome ecosystem
- Develop a VST music plugin
- Go a week without using technology
- Teach my dad how to change the television input

At the bottom, there is a Spotify player showing 'Grant's Top 50 playlist' by Grant Phillips.

4a - Goals ("Music")

The screenshot shows the 'My goals' section for the 'Music' category. The layout is identical to the Technology version, with a sidebar and tabs for Technology, Music, Health & Fitness, Travel, and Personal. Under the Music tab, there is a heading 'Music Goals' followed by a list of goals:

- Release a full album
- Collaborate with one of my musical inspirations
- Complete a B.A. in Music Composition
- Work in the Music industry
- Learn to Dance
- Write a song for my fiancée
- Record a cover of my parents' first dance song (Everything I Do)

At the bottom, there is a Spotify player showing 'Grant's Top 50 playlist' by Grant Phillips.

4b - Goals ("Health & Fitness")

The screenshot shows a mobile application interface. At the top left is the user's profile icon with the name "Grant Phillips". The top right features a purple speech bubble icon, the text "Contact Me", and a right-pointing arrow. Below the header is a navigation bar with five categories: Technology, Music, Health & Fitness (which is highlighted in blue), Travel, and Personal. The main content area is titled "My goals" and displays a section for "Health & Fitness Goals". A blurred background image shows a person working at a desk with papers and a laptop. The listed goals are:

- Stand on top of a mountain
- Complete a Century bike ride
- Do a handstand
- Yoga Everyday
- Deadlift 2x my body weight
- Reduce need for my rescue inhaler

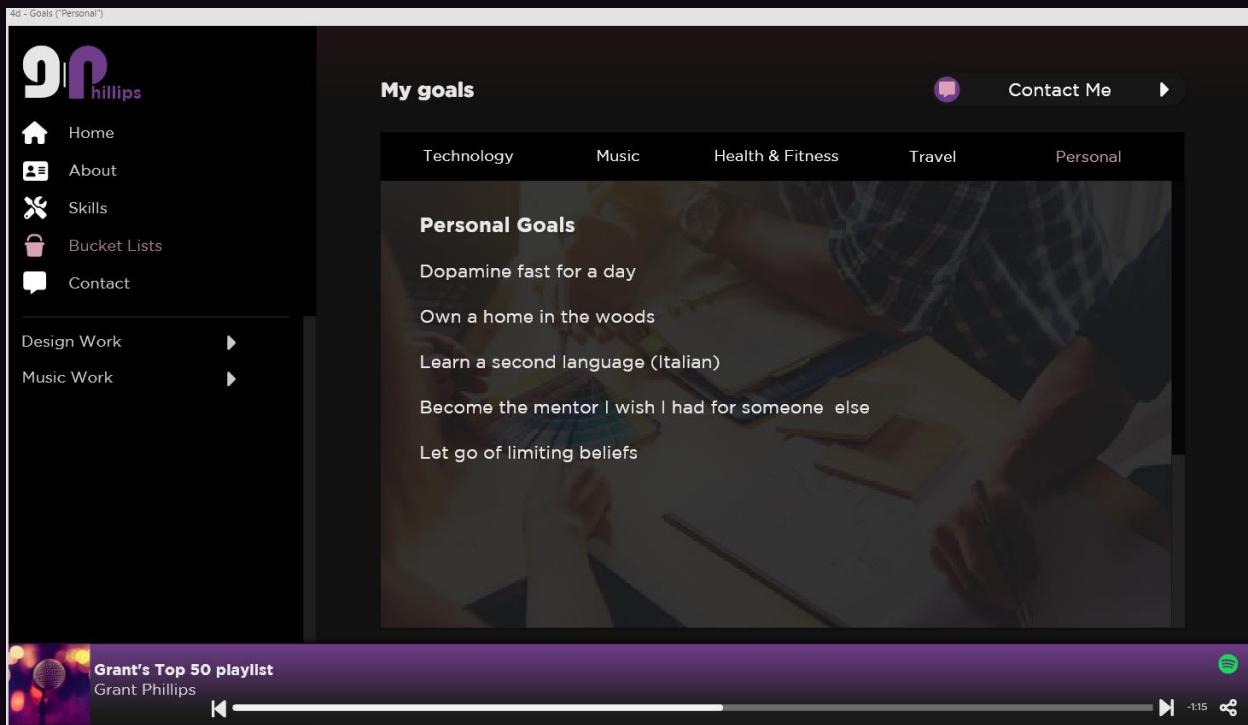

At the bottom of the screen is a purple navigation bar with a microphone icon, the text "Grant's Top 50 playlist", "Grant Phillips", a back arrow, a play button, a forward arrow, and a lock icon.

4c - Goals ("Trips")

The screenshot shows a mobile application interface similar to the previous one. At the top left is the user's profile icon with the name "Grant Phillips". The top right features a purple speech bubble icon, the text "Contact Me", and a right-pointing arrow. Below the header is a navigation bar with five categories: Technology, Music, Health & Fitness, Travel (which is highlighted in blue), and Personal. The main content area is titled "My goals" and displays a section for "Travel Goals". A blurred background image shows a person holding a color palette. The listed goals are:

- Florence, Italy (Gallerie Degli Uffizi)
- Havana, Cuba (Salon Rosado)
- Florence, Italy (Gallerie Degli Uffizi)
- New York, New York (Broadway)
- New Orleans, Louisiana (French Quarter)

At the bottom of the screen is a purple navigation bar with a microphone icon, the text "Grant's Top 50 playlist", "Grant Phillips", a back arrow, a play button, a forward arrow, and a lock icon.

## Notes –

- The element used for the view table is the Bootstrap 5 Scroll Spy - <https://getbootstrap.com/docs/5.0/components/scrollspy/>
- The Scroll Spy can be navigated through the links at the top or the scroll bar.
- Above the background image in each section is a dark overlay to make the text stand out more.
- Titles, Content, and background images on this page are loaded through the Django Admin Screen.
- Content on this screen is presented in list text format.

## Notes –

- Inside a folder can be other folders or hits in the form of Hit cards
- Navigating through the folder structure changes what is highlighted in the sidebar.
- If the user attempts to access a locked folder hit, they are navigated to the Locked screen
- If a hit has the “isHidden” flag turned on, then that item will not display in any folder.

# Design Hit

7 - UI/UX Design Hit View (Summary)

The screenshot shows a dark-themed website for 'DataSafe'. On the left is a sidebar with a logo 'GP phillips' and a navigation menu including Home, About, Skills, Bucket Lists, Contact, Design Work, Career Work, and Music Work. Under Design Work, 'Datasafe' is listed with a lock icon. The main content area has a header 'DataSafe' with a purple speech bubble icon and a 'Contact Me' button. Below the header are tabs for Summary, Problem Statement, Research, and Design. The Summary section contains text about Datasafe being a web platform for scientific discovery, learning, and collaboration, accompanied by a blue-toned server room image. At the bottom is a purple footer bar with a Spotify player showing 'Grant's Top 50 playlist' by Grant Phillips.

7a - UI/UX Design Hit View (Problem Statement)

This screenshot shows the same website for 'DataSafe' but with the 'Problem Statement' tab selected in the header. The main content area displays text about the challenges faced when the user joined the team in January 2019, mentioning security guidelines and visual attractiveness. It also highlights the task of characterizing defects and improving the interface. Two small images are shown: one of a person working on a ceiling and another of a person in a factory setting. The footer bar remains the same as in the previous screenshot.

Summary      Problem Statement      Research      Design

To identify what would need to be done to improve the system, series of Contextual Inquiries were conducted over my first year there.

After many lab visits, it was uncovered that researchers wanted a tool that they would have to interact with as little as possible.

To accommodate this, the backend was upgraded to function within various Jupyter notebooks through API calls. The front end was updated to remove the clutter in between users and their data, and give the site a modern look & feel.

Grant's Top 50 playlist  
Grant Phillips

7c - UI/UX Design Hit View (Design pt.1)

The screenshot shows a mobile application interface. At the top left is the user's profile icon with the name "Grant Phillips". The top right features a purple speech bubble icon, the text "Contact Me", and a right-pointing arrow. Below the header, there are five tabs: "Summary", "Problem Statement", "Research", "Design", and "Prototypes". A breadcrumb navigation path is visible: "Secondary Research > User Research > UCD Documentation > Functional Requirements > Activity Diagrams > Idea Sketches > Wireframes > Confirmation > Mockups > Prototypes". The main content area displays a server room image with the title "Data Management Platform" and "Design and Analysis Lead" followed by the time "2019 - Current". To the right is a slide show of two images: one showing hand-drawn sketches of icons and another showing a person pointing at a whiteboard with wireframe prototypes. At the bottom, a Spotify player shows a playlist titled "Grant's Top 50 playlist" by Grant Phillips, with a progress bar at 1:15.

7c - UI/UX Design Hit View (Design pt.1) – Preview

This screenshot is identical to the one above, but it includes a large thumbnail image in the center showing a hand sketching wireframe prototypes on paper. The rest of the interface, including the sidebar menu, tabs, breadcrumb path, and Spotify player, remains the same.

## **Notes –**

- The image on the Summary section is not previewable.
- The images on the Problem Statement section are previewable.
- There can only be two images on the Problem Statement section
- The Individual text items (separated by a chevron) in the Design section have tool tips that are displayed when clicked on.
  - When these items are hovered over, they change color to pink
  - The tool tip disappears if the user clicks on the site again.
- The user can cycle through/preview images in the design section.

# Diagram Hit

8 - Network Diagram Design Hit View

The screenshot shows a dark-themed web page for 'Grant Phillips'. On the left, a sidebar lists 'Design Work' under 'Karaoke Night' (highlighted), along with other categories like 'Career Work', 'Datasafe', and 'Music Work'. The main content area features a 'Karaoke Night' banner with a neon sign. Below it, text reads: 'A night to get together and let loose!', 'Organizer', and '2022'. To the right, there's a network diagram titled 'Karaoke Night' showing various devices connected to a central Router. A text box explains the setup: 'With my birthday approaching and coming out of a rough past couple years, I wanted to celebrate in a way that would bring up people's energies and put my skills to work. Thus, I set up and hosted a Karaoke Party.' Another text box details the invitation process: 'The first step was to map how each device would connect to each other. This was done using the diagramming tool LucidChart.' A third text box describes the invitation: 'Next was to design an invitation that would not only provide event details, but also give people a way to sign up for karaoke. To do this, I linked a QR code to a Google Form link where people could sign up for times and submit what songs they'd like to sing.' At the bottom, a Spotify player shows 'Grant's Top 50 playlist' by Grant Phillips.

8a - Network Diagram Design Hit View (Preview)

This screenshot is a preview of the network diagram from the previous view. The layout is identical, but the central image is a larger, clearer version of the network diagram titled 'Karaoke Night'. The diagram illustrates the physical connections between a Firewall, Router, Switch, and various client devices (PCs, mobile phones, tablets) connected via Wi-Fi. Other components shown include a Home network, Branch Office, File Server, Database Server, and a Printer. The right side of the screen contains the same descriptive text about the event planning and invitation process, and the Spotify player at the bottom remains the same.

## Notes –

- Users can cycle through/preview images associated with this hit.

# Video Hit

The screenshot shows a website portfolio page. On the left, there's a sidebar with a navigation menu:

- Home
- About
- Skills
- Bucket Lists
- Contact

Below this are dropdown menus for different work categories:

- Design Work
- Career Work
  - Datasafe
  - Outta This World
  - Grant.Studio
  - The Avalons
  - Spotify Writer's Room
  - Karaoke Night
- Music Work

On the right, the main content area features a video thumbnail for "Datasafe Training Series". The thumbnail shows a man speaking to an audience in a room with large windows. Below the thumbnail, the text reads: "A set of videos designed to train users to use the Datasafe System". To the right of the thumbnail is a large red play button icon. At the bottom of the page, there's a purple Spotify player bar showing "Grant's Top 50 playlist" by Grant Phillips.

**Datasafe Training Series**

A set of videos designed to train users to use the Datasafe System

Producer

2021

Contact Me

As part of my work with Datasafe, I created a series of training videos to help users learn how to use the system. From storyboarding to publishing, I ran the entire process.

Tools used included Adobe Premiere Pro and Ableton Live 11.

# Music Hit

10 - Music Work Hit View

The Flower That Blooms

5 Song EP

Songwriter | Recording Artist | Producer

2021

In early 2021, I was approached by a friend who was completing his Graphic Design program with an idea he had for a project. He had to do a branding project and offered to center it around my Patternman artist brand.

While he created the visual assets required, I wrote, recorded, produced, mixed, and mastered the EP. I based it around my experiences over the past few years, starting with the death of a close family member, through the pandemic, and leaving the door open as to where my story will lead.

# Under Construction Hit

## Notes –

- If a hit is flagged as “Under Construction” on the Django Admin screen, this screen is shown instead of the usual Hit screen
- This screen displays the Hit name and the description of the Hit
- This screen displays what step is currently being worked on.

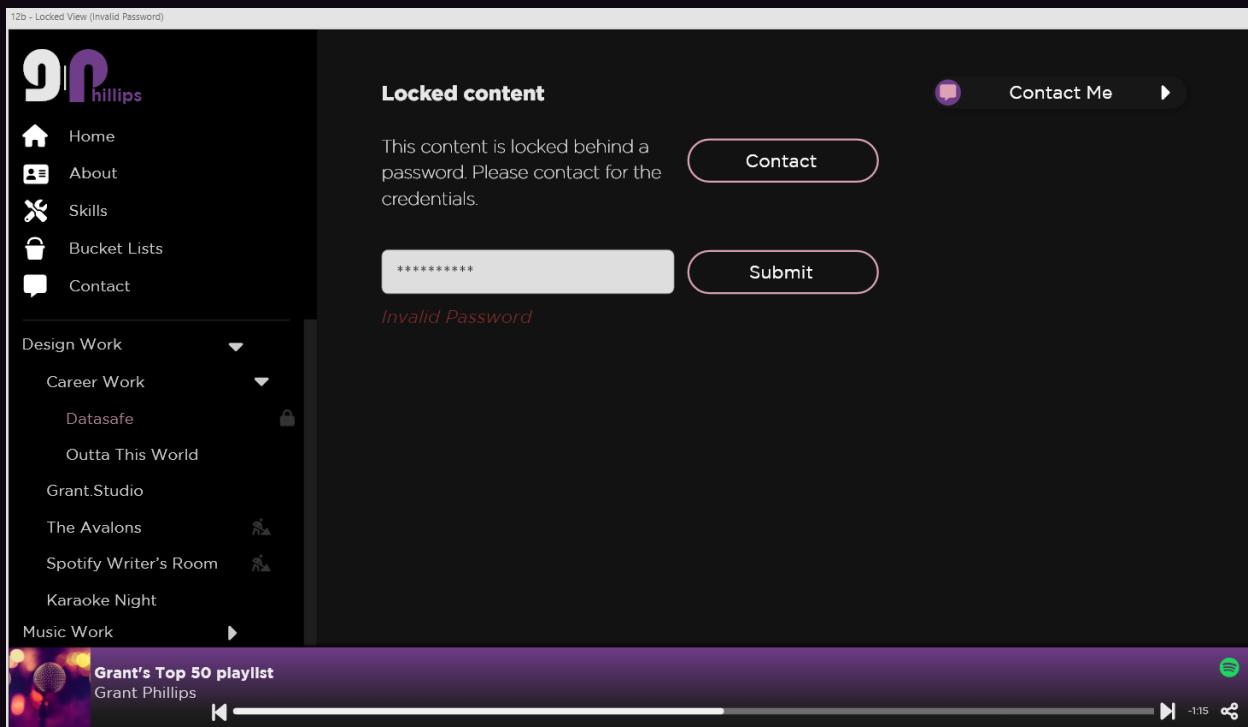

# Locked Hit

12 - Locked View

The screenshot shows a dark-themed website for '911phillips'. On the left, there's a sidebar with navigation links: Home, About, Skills, Bucket Lists, Contact, Design Work (with sub-items Career Work, Datasafe, Outta This World), Grant.Studio, The Avalons, Spotify Writer's Room, Karaoke Night, and Music Work. Below the sidebar is a purple banner for 'Grant's Top 50 playlist' by Grant Phillips. The main content area has a dark background with white text. It displays the message 'Locked content' and 'This content is locked behind a password. Please contact for the credentials.' There are two buttons: a white 'Contact' button and a white 'Submit' button next to a password input field. In the top right corner, there's a 'Contact Me' button with a speech bubble icon.

12a - Locked View - Entered Data

This screenshot is identical to the one above it, except the password input field now contains the text '\*\*\*\*\*'. All other elements, including the sidebar, main content message, and footer, remain the same.

## Notes –

- If a hit is marked as “Password Protected” then a correct password must be entered in order to access the hit
- Passwords can be used by multiple users.
- Passwords are set in the Django Admin screen
- If a wrong password is entered, then an error is displayed.
- If the correct credentials are entered, then the user is directed to the Hit.
- A correct password is required every time a user navigates to a locked hit.
  - If a user browses away from the locked hit after successfully gaining access, they still must enter the correct password.

# **Future Work**

## **Notes –**

- Would like to eventually add a Calendar to display my availability/events I'm attending.
- Would like to eventually include a blog.
- More smooth, eye catching animations are a big plus.
